

Harder Coal Burns Hotter

Do You Know Just What Kind of Coal You Are Buying?

For the sake of economy it will pay you to find out.
Some Coals burn longer and give more heat ton for ton than others.
As a result some Coals are cheaper to use than others.
You can afford to pay a little more for the coal which lasts longest, burns most evenly and gives most heat and actually saves money.

TOOK SEVERE COLD ON HIS LUNGS

Coughed Phlegm and Blood

On the first appearance of a cold or cough, do not neglect it, but get it at once before it has a chance of growing worse, and get settled on Lungo, causing bronchitis, pneumonia and other serious lung troubles. Dr. Wood's Norway Pine Syrup cures the cough or cold on its first inception and perhaps save you a great deal of suffering.

My G. F. Strachuk, Coker, has written: "Last winter I caught a severe cold on my lungs, and it was coughing up phlegm and blood most of the time. I had the cough for two months, and took a great deal of medicine, but found no relief from them. At last, a friend advised me to take Dr. Wood's Norway Pine Syrup, which I did, and it cured me in a very short time, and today I am enjoying good health again."

The marvelous results that Dr. Wood's Norway Pine Syrup has achieved in the cure of colds, coughs, and other serious lung troubles are the reason why it is so popular. It is a pure, natural, and safe remedy, and it is the only one that does not contain any harmful ingredients. It is the only one that is guaranteed to cure the cough or cold on its first inception, and it is the only one that is guaranteed to save you a great deal of suffering.

IMPORTATION OF LIQUOR MAY BE PERMITTED

When Signing of Peace Order- Council Passed at Ottawa. Expires

A perplexing situation has arisen in the standing of prohibition in this and other provinces. The order-in-council passed last January by the Dominion government prohibiting the manufacture and importation of liquor has been proclaimed. This order was to continue until one year after peace was declared. Now someone has raised the point that as the order-in-council was passed under the War Measures Act, it may become invalid as soon as peace is declared.

The Dominion prohibition committee representing the various provincial organizations in Canada immediately called a conference on Monday night, when the whole question will be presented by Mr. J. G. McInnis, M.P., and the A.W. Council, general secretary of the Alberta Prohibition League, who left Tuesday to attend to the matter.

Germans Tell of Cool Reception Given by Foch and Associates

Amsterdam, Nov. 25.—The armistice conferences between the German delegates and Marshal Foch and his associates were carried out in the most business-like manner possible and apparently without notable incidents, according to a long account of the conference given by the Berlin Vossische Zeitung by a member of the German party. After the French met the German commissioners they were driven for ten hours in automobiles to an appointed rendezvous.

"It seemed to me," says the narrator, "that the drive was intentionally prolonged in order to carry us through the devastated provinces and prepare us for the hardest conditions which hatred and revenge might demand. One of the Frenchmen pointed to a heap of ruins, saying, 'Behold St. Quentin.'"

"We entered a train, with blinds drawn, in the evening, and awoke in the morning in the midst of the forest of Compiègne, surrounded by soldiers. There were two trains, one occupied by Marshal Foch and his staff, and the other by the Germans. In these we lived, worked and negotiated for three days. We had everything in abundance. There was nothing to find

fault with. The great anxiety and hatred that apparently prevailed against us were shown, however, in the negotiations and in the terms imposed.

The narrator remarks that the French officials and Vice-Admiral Wemyss, British representative, maintained a cold attitude, "never tempered by a friendly word."

"Marshal Foch, whom we saw twice at the beginning and at the end of the conference, is a stern, plain man. He did not speak a single word to us in the time which formerly distinguished the chivalrous French nation."

It is not true that Foch told us there could not be any question of negotiations, only the imposition of conditions, and whatever outcome he displayed was never ill-mannered or rough.

"Really there was nothing to negotiate. We pointed out the technical impossibility of some conditions. Finally we were obliged to sign."

During the discussion the French handed the Germans the Paris newspaper announcing the abdication of Emperor Wilhelm.

"We observed no smile of triumph on the faces," says the writer, "but could discern their hatred."

Allied Forces Sent Against Bolsheviks Are Bivouaced On Frozen Stream at Kadish

Force Has Been Operating Between Dvina River and the Volodga Railway Through Territory of Swamps and Forests—Enemy is Camped on Other Side of the River

Archangel, Nov. 25.—In log huts and wind shelters the Allied forces are holding the line against the Bolsheviks on the northern shore of the Gulf of Bothnia. In the region of Kadish, front ten weeks of fighting in swamp and this undergrowth the Allies are now bivouaced in and are bivouaced along an ice-filled stream on the opposite side of which are the camp fires of the enemy.

Under British command and co-operating with British forces, the American infantrymen on the sector previously had more fighting and more hardships than any other American unit in Russia. The force has been operating between the Dvina river and the Volodga railroad through a territory of swamps and forests; the roads have been in bad condition and the only means of transportation of supplies is a greater part of the front has been wharfedown—chained cars drawn by sturdy Russian ponies.

The campaign began in August when a British and French force entered Selenok, a large village about midway between the Dvina and the railroad on the River. They were forced to move to another sector and the Bolsheviks occupied the town only to be driven out a few weeks later when American reinforcements arrived. Since early in September the opposing forces have battled back and forth along the road leading toward Ivogorod through three five house villages. Selenok has changed

hands twice. Nov. 27.—Because an influenza epidemic has been feared the Kadish river 25 miles south of the front was crossed by the Americans in the fighting. The village is now in the hands of the enemy. The Bolsheviks at times try the force of their artillery on the Allies. On two nights last week, English-speaking Bolsheviks appeared in No. 10 and 11 and made speeches urging the Americans not to fight. Great red banners printed in English, also are strung along the enemy bank of the river. American troops also are operating on the Mehrenka river 50 miles south of Selenok and in a more thickly populated country. The village there are strongly anti-Bolshevik and Russian detachments are aiding the Allies. On Wednesday a Russian detachment surprised and defeated an enemy force, killing nearly 100.

HALICOURT
Bulletin News Service.
The influenza epidemic has at last reached Halicourt, and about a dozen cases have been reported. What it seems to be in its most malignant form, we are informed by the death of Walter Pelletier, who died on November 10, after an illness of about ten days.

A number of new residences are being built south of the Red Willow River in the Halicourt district. The \$12,000 bridge has been constructed connecting us up with the outside world. The result is to induce new settlers to come.

Alan Grant's new threshing outfit, from all reports, is a great success. The oats are yielding well, but the wheat is, generally speaking, a failure.

The district is sustaining its high record for very few November weathers.

THE ONLY WAY

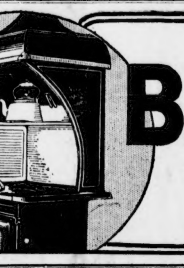

To cure a skin disease, ulcer or sore permanently is to get to the "root" of the disease. That's what Zam-Buk does.

Zam-Buk's extraordinary powers of penetration, combined with its germ-destroying properties, enable it to reach and destroy all germs in the underlying tissue, where skin troubles have their origin.

In other words, Zam-Buk cures from the "root" upward, so that no trace of the disease is left to break out again.

To get lasting results, therefore, you should use Zam-Buk for all skin diseases, boils, ulcers and blood-poisoning, sores and piles. All dealers, 60c. box.

WILSON TO LAND AT BESSY
Paris, Nov. 27.—(Herald)—It seems decided that President Wilson will land at Bessy, according to the Herald. He will be met there by Stephen Pichon, foreign minister, and Georges Leygues, minister of marine, who will welcome him in the name of the French government.

FULLMAN FARE REDUCED
WASHINGTON, Nov. 24.—Birmingham of the end-half sent a mile extra railroad fare for Pullman transportation effective December 1 has been decided on by Director-General McAdoo.
